

Shared Education - Shared Future

**ANNUAL REPORT  
and  
SUMMARY OF ACCOUNTS  
of the  
Board of Governors of  
Roe Valley Integrated Primary School**

**September 2018 - August 2019**

## Shared Education - Shared Future

Dear Parents/Guardians,

On behalf of the Board of Governors I am proud to present to you our school's annual general report for the academic year 2018/2019.

I would like to extend my appreciation to our Principal Julie McDonagh and Vice-Principal Joanne O'Donnell for the excellent leadership they continue to provide to our school.

Our teachers and staff, from the front office, to the classrooms and into the specialist areas have all contributed to the creation of a caring, stable and stimulating environment in which our children continue to grow and develop. We are very fortunate to have such a dedicated and talented staff to educate and care for our children and I would like to thank each of them, on behalf of the Board of Governors, for their unreserved commitment.

I would also like to thank each member of the school's Board of Governors for the support and commitment they continue to give to the school by utilising their valuable time to ensure that our school goes from strength to strength.

Empowering our children to achieve their true potential is both the responsibility of the school and you the parent/guardian. We value your support and welcome your views and ideas on how best to develop our school.

I wish to conclude by thanking each of you for the support you have given to our school throughout the year and look forward to another successful year in 2019/2020.

I commend this report to you.

Yours sincerely

Ryan Brolly  
Chairman, Board of Governors  
Roe Valley Integrated Primary School

## Shared Education - Shared Future

### **Provision for Children with Additional Needs**

The Special Educational Needs Co-ordinator (SENCO) facilitates the programme for children with additional needs at RVIPS. The school provides support for a wide range of needs. Children who require additional support are provided with an Education Plan and a Programme of Work specific to the needs of the child. The school also uses the Education Authority referral system to access advice from the Educational Psychology Department. The Educational Psychologists provides reports, advice and in some cases after a variety of diagnostic tests and consultation with other outside agencies, a Statement. This Statement enables a variety of interventions and support to be put in place. Statemented children are assigned a Classroom Assistant whose job is to assist the child with their specific needs and ensure they are included within all classroom activities.

Children's progress is regularly monitored and evaluated. Data is analysed and appropriate targets are set. The school also provides a wide range of Educational Computer Programmes and support to enable the child to succeed to the best of their ability. The school also supports pupils and families who have English as a second language and gifted and talented pupils. Roe Valley IPS is committed to providing all children with the best possible education, catering for the needs of every child and ensuring all children reach their full potential.

### **The Security of the Children and Staff of Roe Valley Integrated Primary School**

RVIPS is a secure site at all times with all gates remaining closed/locked during the day. The only access is through the pedestrian gate nearest the office where visitors gain access via a buzzer system. All visitors must report to the school office and sign in and out. They must wear a visitor's badge for the duration of their visit.

Staff members wear the school uniform and school coat which makes them easily identifiable at all times.

There are 15 CCTV security cameras placed around the school premises. The monitor is situated in the school office and staff can easily see any intruder who may be prowling around the grounds during the day. The camera records all activity and is regularly checked to see if there has been any intrusion out of school hours. An intruder alarm is set every evening. Any illegal entry will immediately alert the local police station, the alarm company who manage the system and the key holders of the school.

The school regularly liaises with our local community police who provide advice on how to maintain the highest safety standards to ensure the safety of the children, staff and premises.
